Background

## About DIALux

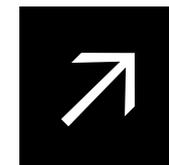

You already know DIALux. That's great!  
But let's dive in and see how relevant DIALux really is in the world of lighting design.

DIALux is the market leader in lighting calculation and is used by 750,000 users worldwide. DIALux natively supports 25 languages.

The majority of leading lighting manufacturers partners with DIALux. Every month DIALux users place about 60 million lighting fixtures in planning projects.

Background

## About the DIALux Trainer Network

In 2014 we established an international network of DIALux trainers. We aimed to increase the popularity of DIALux even more and find a good answer for two different demands we faced: Designers worldwide wanted to learn DIALux in their native language and DIALux experts needed the materials and knowledge to conduct DIALux seminars.

Since 2014 our DIALux Trainer Network has grown to over **60 members** worldwide and has conducted numerous seminars and workshops for beginners and advanced users.

Benefit

## What's your benefit as a DIALux Trainer?

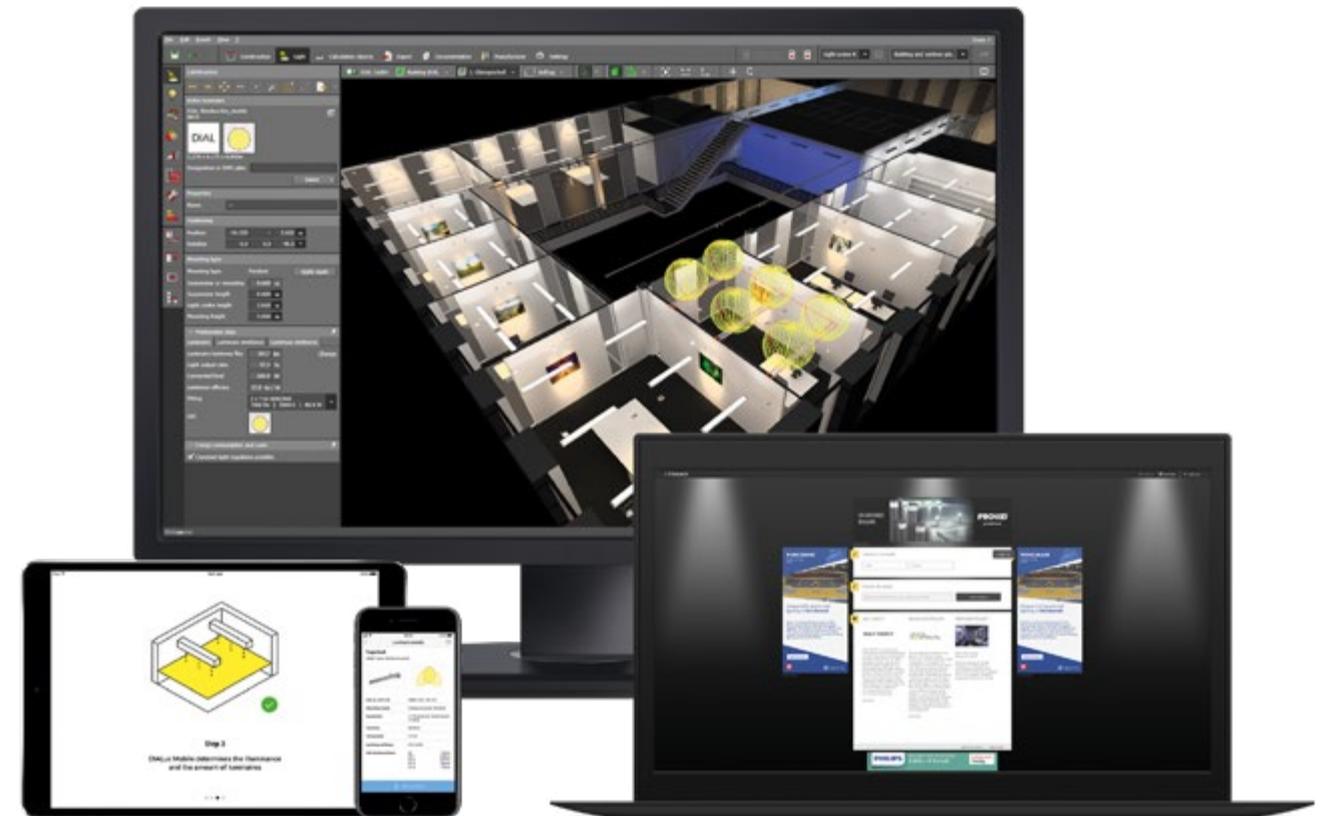

You can educate others and **share your knowledge** of DIALux and your passion in lighting design.

You can **profit financially** from your knowledge and expertise in using DIALux.

You **spread the word** of DIALux and the value of good lighting.

You **know first** about new features and developments in DIALux.

You can **connect** to lighting designers worldwide.

Certification

## How to become a DIALux Trainer?

Together with you, we would like to offer DIALux users high quality training. To ensure this, you will **take a small test** to be accepted into the trainer network. This test will also be repeated annually in the future so we know that you are still up-to-date. Don't worry: For DIALux experts, this is a piece of cake.

Before you start as a trainer, you will have to **complete a small planning task** in DIALux. Submit it to our online self-service and off you go!

→ [Join now](#)

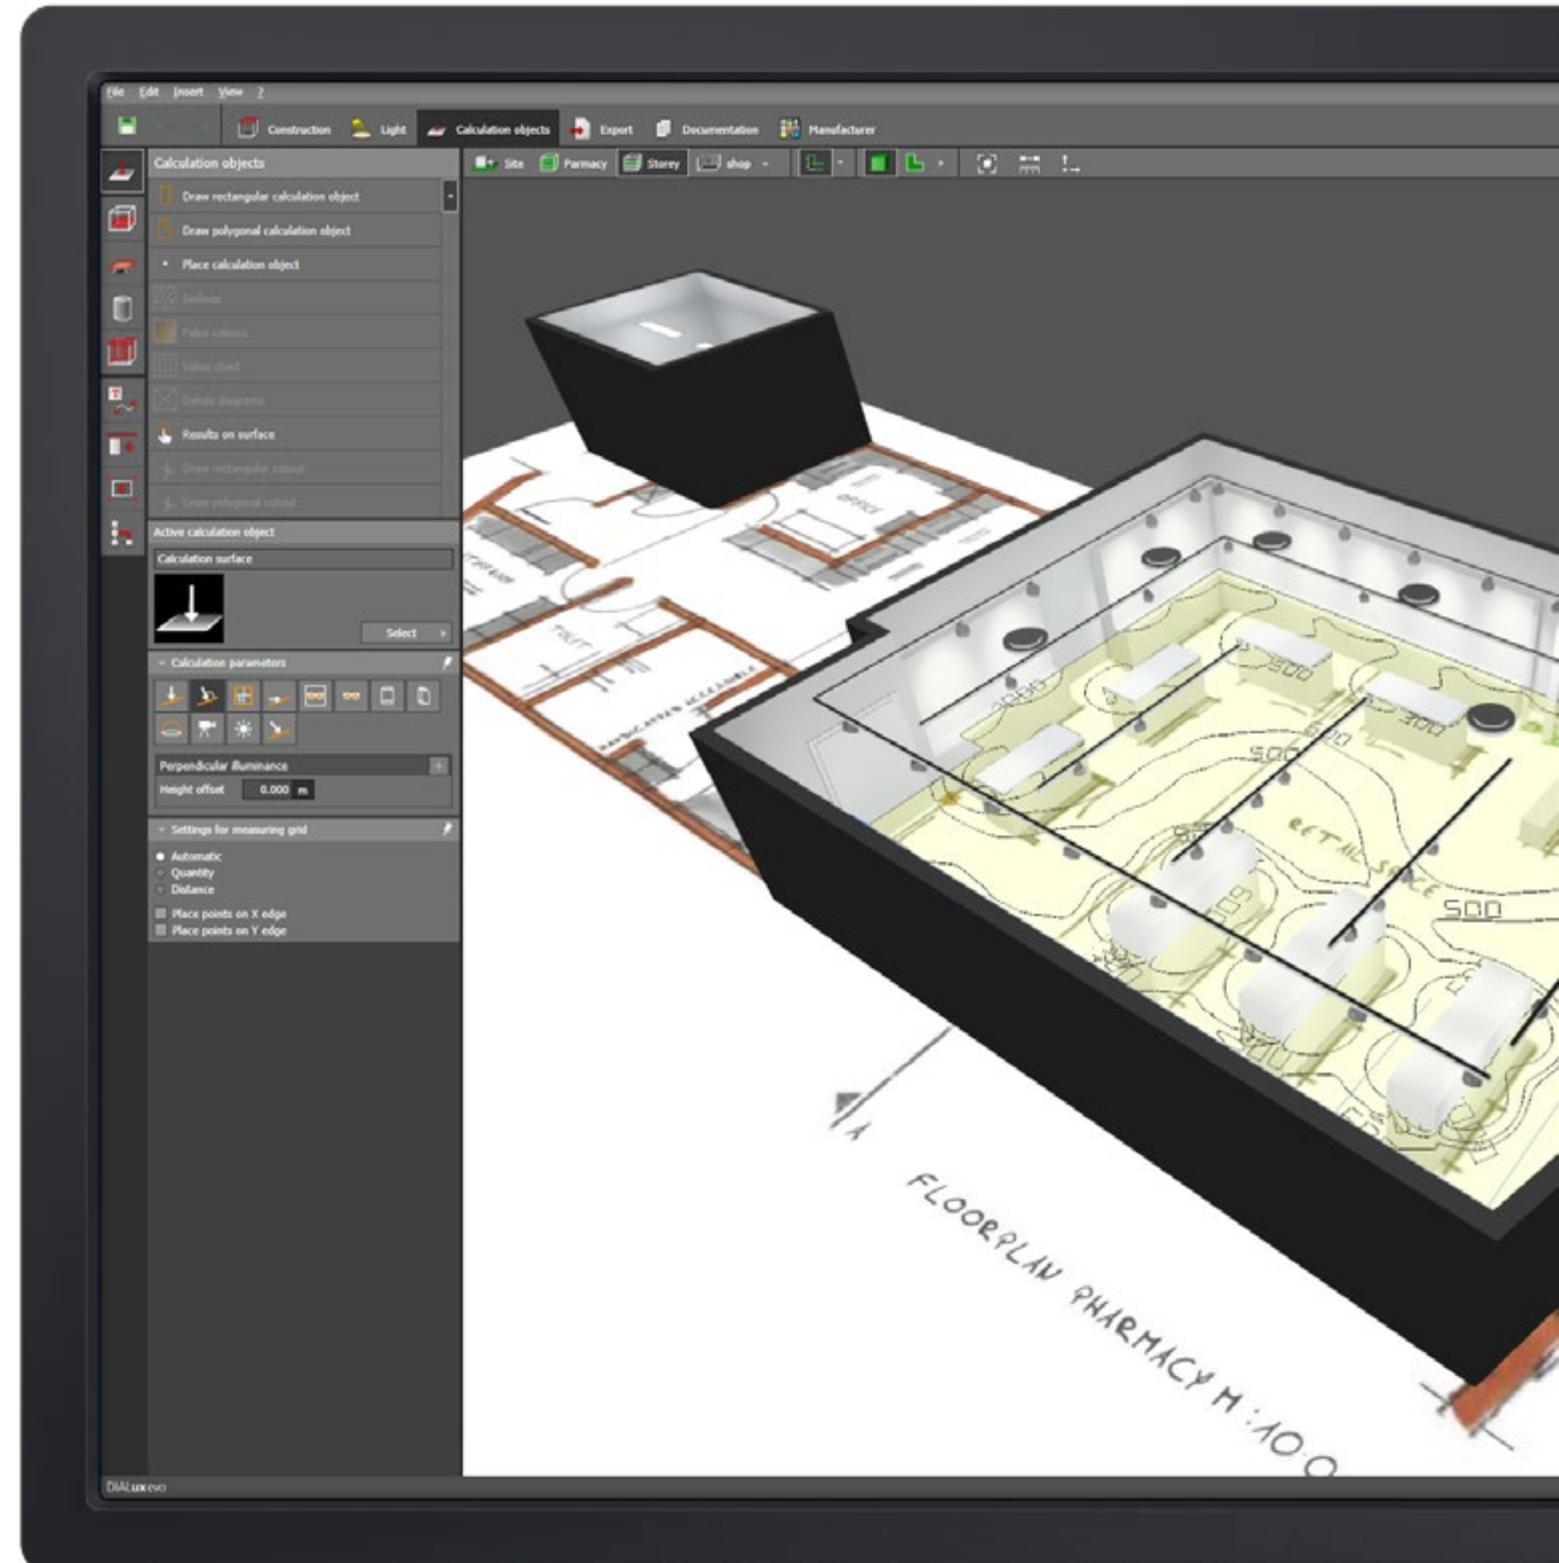

Support

## We support you with our know-how...

We support you with the necessary know-how around basic and advanced DIALux trainings. When we release a new DIALux version, we invite you to an online training (in English only), so **you always know first** about new features and functions.

Of course we will help you directly with questions about the software. Fast, uncomplicated and direct! You will receive **priority access to our Help Desk** and a **50% discount for DIALux online courses** offered by DIAL.

Support

## ...and with a ton of training material.

You will receive a detailed package with different materials from us. This includes, of course, the necessary **training material** for DIALux basic and advanced trainings.

Furthermore we provide you with some **marketing material** about DIALux to promote your trainings. While being a member of the Trainer Network you are allowed to use the DIALux trademark. You will also receive a **template for certificates**, which you can hand out to your participants.

Nº 1

Business

## **It's your business.**

We are convinced that a free market is an advantage for all of us. Therefore we have no influence on the level of your prices: You know your market best and we trust your judgement. We only ask you to be fair, open and transparent to your customers, in the spirit of DIALux.

You are also free to adjust the scope and content of your courses: tailormade, classroom, online... You know the needs of your customers best.

You independently offer your products and services on the market and it's on you to choose your marketing tactics. As a DIALux Trainer we will list you on our homepage, so you can be found and contacted by potential seminar participants reaching out to us.

¥€\$!

Business

## **The best part: A reasonable price.**

**1,500 €** one-time fee for setup and certification  
plus

**1,000 €** annual membership fee

### **Process and requirements**

Upon successful registration we will send you an invoice and a contract. After receipt of payment and the signed contract, you will be granted access to our learning platform. There you have access to our online courses as well as to the obligatory multiple choice test and the planning task.

After passing both parts, you will be listed as a Certified DIALux Trainer on our website and you will receive the trainer certificate and access to the course and marketing materials.
